LIGHT FROM A DEAD STAR He lives his life in a world full of women And he takes what he wants from their love And he throws the rest away I cling to him and pray But still he slips away And now it's just too late To wish him back again She won't put up with this life so she leaves him And she finds someone else, falls in love And she travels far away I say that it's ok And swallow all my pain And now it's just too late To wish her back again They left me here on my own in a nightmare And I just can't forgive any more So I smile and turn away Don't listen when they say They wish that I could stay And now it's just too late To wish me back again

KISS CHASE Tiny children on their own they learn so fast How to make new friends how to play their new games I remember a man he had shiny hair Always hanging around when you went away Little eight year old, she knows too many secrets Much too young to understand what it means I remember a woman with silver hair And the smell and the taste of the bed we shared And that's how I behaved Every time that you went away And now, though I'm older nothing's changed (playing the same games) And I knew every day Came a chance that you'd leave me So I found what I could to take your place Told me not to cry Said that I'd evolve As he wound

goodbye And I want to try Not to
 make you cry Want us to survive
 Never say goodbye But that's I
 behaved when you go away
 Because though I'm older nothing's
 changed (playing the same games)
 And I know every day There's a
 chance that you'll leave me So I
 find what I can to take your place

BLACKOUT I'm not
 interested in what you have to say
 You're just a vacant space Other
 people's lives upon which you prey
 It's a permanent disgrace Why do
 you think you know what's best for
 me? What I should and shouldn't
 do Why do you judge my history?
 And tell me to improve In the
 confines of your mind You think
 we're all the same I've left them
 all behind Though you wish I hadn't
 In finding fault in others I can't see
 What you have to gain I know that
 you get pleasure from Other
 people's pain You're not so perfect
 and I realise the scene That you're
 all coming from When you say you
 care I know what you mean You're
 really lying All the people around
 here Love to hear about a fall
 They all surface and disappear In
 an instant In the confines of your
 mind You think we're all the same
 I've left them all behind Though
 you wish I hadn't

HYPOCRITE A silly girl I run
 around and never know my reasons
 An though you're laughing with me
 I know what you say about me I
 can't explain, it's not your business
 anyway So don't say you
 understand And don't pretend
 you're on my side And I remember
 when you hated her for sleeping

next to him I see your smiling face
 but I know you've done worse to me
 You hypocrite, don't talk to me
 'Cause you're not fit to know me
 So don't pretend That you could've
 ever been a friend And still I'm
 sure you think it's ok What you've
 done to me 'Cause I'm so bad to
 him Don't even try to hide behind
 that stupid lie I know your kind and
 I know where your loyalties lie
 The silly girls we run around and never
 know our reasons And though I
 understand I guess I'll say that you
 betrayed me I'm a hypocrite, I dish
 it out but I can't take it I know you
 think it's wrong And maybe you're
 right but this is my song And still
 I'm sure you think it's ok What
 did to me 'cause I'm so bad to him
 Don't even try to hide behind that
 stupid smile I know our kind and I
 know where our loyalties lie
LOVELIFE You are the one
 In your concrete arms I adore you
 Dirty and dear Block out the sun
 In your twists and turns I invade
 You show me no fear We blow around
 like tiny leaves in a big storm
 Finding there's nothing left to
 breathe or to keep warm You ebb
 and flow and your rhythm beats my
 head Leave me alone while you
 swallow up your dead You are the
 one You cradle me and kill
 Caressing my face Leave me
 undone You suffocate and have me
 This is the place Every door
 conceals a dream and a nightmare
 Nothing is ever really pure in the
 stale air And when it's dark
 everything becomes more clear Lie
 in the park when I want to have you
 near You are the one In your

concrete arms I adore you Dusty
 and dear Block out the sun In your
 twists and turns I invade You show
 me no fear Left it unsung I shall
 leave but I'll return Poison my
 lungs, my blood is full of lead
 Things unsaid My love for you still
 burns **DESIRE LINES** It's
 raining in this room And it's so hot
 outside this room I don't know no
 one here I don't want to be here
 In this room We hold parties in our
 sleep We fill ourselves up in our
 sleep And I'll heal you when you're
 ill Though it's hard keeping still In
 our sleep Prise the hair out of her
 mouth Whilst the circus is heading
 south While we search in the sand
 Don't ask them to understand Why
 they cover up their hands And their
 mouths **THE INVISIBLE
 MAN** Oooh Outside you are
 waiting for me, hiding You catch
 me when I am Needing a friend to
 hold You can soothe me, lie above
 me Press hard Then you strike
 And I think that I'll die 'Cause I
 can't breathe, can't breathe Please
 let me start screaming Please let
 me start screaming Please let me
 start screaming Oooh Please let
 me start screaming Eyes are open
 seeing nothing Hands are tied and
 I can't function Please let me start
 screaming **UNDERTOW** So
 you want to be alone Run and hide
 inside your home Watch you fall
 away from me Sinking into misery
 Taste your smile and hold my hand
 Make you laugh and make you
 dance I remember this Everything
 was in our kiss Sink my hands into
 the sea Reach your fingers up to me
 Trust me one more time I can only
 try Throw yourself to me And I'll

try to pull you free Let me try to
 pull you free **NEVER**
NEVER Only children

 can often be a friend Have to shut
 yourself in Don't know how to
 begin Telling it someone Who
 doesn't fit in I am sunken in
 biology I cannot control that part of
 me I don't want to hurt you But I
 know I will do Maybe we can find
 out What are we to do? I don't
 have long fingernails to use Would
 we care if we were black and blue?
 We're both sick but still you hold my
 hand We're together but I
 understand Walk along the seaside
 This is not a joyride Tell me in the
 meantime It's okay **LIT UP** You
 feel like I do Like the whole
 world's forgotten you And your life
 is so dull and predictable Your
 room seems like a cell And you
 don't sleep very well And your
 friends only talk to point and to
 mock And to ridicule One day
 things won't seem the same way, I
 know Morning in the mirror Things
 will suddenly seem much clearer I
 promise, it's alright His words
 don't flatter me And they're
 printed for all to see I don't care,
 he's not there It's all history The
 future's yours to hold And you're
 really not very old And your life is
 so white, so clean and so bright
 And holds mystery Morning in the
 mirror Things will suddenly seem
 much clearer I promise it's alright
 One day things won't seem the
 same way, I know

 Make you mine, make me shine
 Take me if you want me I don't care,
 I don't mind I want your starlight
 Make it mine, make me shine
 Touch me with your light And I'll
 burn like a star **WHEN I DIE**
 If you walked in now I wouldn't
 start I wouldn't frown And if you
 just appeared I wouldn't cry or
 think it weird 'Cause you are still
 around You're in the air, you're in
 the ground And you can't go away
 I am afraid you're here to stay
 Friends don't understand They
 close the door, they raise their
 hands She says she hears your
 voice Of course she does, she has
 no choice I was hours ahead When
 they removed you from your bed
 They drank all the while Until you
 said goodbye Why are we sitting
 here in ourselves? I don't look up,
 I don't look down I look ahead and
 make no sound My love was there,
 I only stare Healthy in my dreams

 the same games) And I knew every
 day Came a chance that you'd
 leave me So I found what I could to
 take your place Told me not to cry
 Said that I'd survive As he waved
 goodbye And I want to try Not to
 make you cry Want us to survive
 Never say goodbye But that's I
 behaved when you go away
 Because though I'm older nothing's
 changed (playing the same games)
 And I know every day There's a
 chance that you'll leave me So I
 find what I can to take your place
BLACKOUT I'm not
 interested in what you have to say
 You're just a vacant space Other
 people's lives upon which you prey
 It's a permanent disgrace Why do
 you think you know what's best for
 me? What I should and shouldn't
 do Why do you judge my history?
 And tell me to improve In the
 confines of your mind You think
 we're all the same I've left them
 all behind Though you wish I hadn't
 In finding fault in others I can't see
 What you have to gain I know that
 you get pleasure from Other
 people's pain You're not so perfect
 and I realise the scene That you're
 all coming from When you say you
 care I know what you mean You're
 really lying All the people around
 here Love to hear about a fall
 They all surface and disappear In
 an instant In the confines of your
 mind You think we're all the same
 I've left them all behind Though
 you wish I hadn't
HYPOCRITE A silly girl I run
 around and never know my purpose

LOVELIFE

And though you're laughing with me
I know what you say about me I
can't explain, it's not your business
anyway So don't say you
understand And don't pretend
you're on my side And I remember
when you hated her for sleeping
next to him I see your smiling face
but I know you've done worse to me

You hypocrite, don't talk to me
'Cause you're not fit to know me So
don't pretend That you could've
ever been a friend And still I'm
sure you think it's ok What you've
done to me 'Cause I'm so bad to
him Don't even try to hide behind
that stupid lie I know your kind and
I know where your loyalties lie The
silly girls we run around and never

know our reasons And though I
understand I guess I'll say that you
betrayed me I'm a hypocrite, I dish
it out but I can't take it I know you
think it's wrong And maybe you're
right but this is my song And still
I'm sure you think it's ok What she
did to me 'cause I'm so bad to him
Don't even try to hide behind that
stupid smile I know your kind and I
know where our loyalties lie

LOVELIFE You are the one
In your concrete arms I adore you
Dirty and dear Block out the sun In
your twists and turns I invade You
show me no fear We blow around
like tiny leaves in a big storm
Finding there's nothing left to
breathe or to keep warm You ebb
and flow and your rhythm beats my
head Leave me alone while you
swallow up your dead You are the
one You cradle me and kill
Caressing my face Leave me
undone You suffocate and have me

STARLUST Walking at
 midnight In the darkness, alone
 Standing in the shadows And I'm
 watching your glow Standing in the
 red light And I'm smiling at you
 Dreaming of the starlight Just
 waiting for you I'll do anything to
 Make you mine, make me shine

 I don't mind I want your starlight
 Make it mine, make me shine
 Touch me with your light And I'll
 burn like a star **WHEN I DIE**
 If you walked in now I wouldn't
 start I wouldn't frown And if you
 just appeared I wouldn't cry or
 think it weird 'Cause you are still
 around You're in the air, you're in
 the ground And you can't go away
 I am afraid you're here to stay
 Friends don't understand They
 close the door, they raise their
 hands She says she hears your
 voice Of course she does, she has
 no choice I was hours ahead When
 they removed you from your bed
 They drank all the while Until you
 said goodbye Why are we sitting
 here in ourselves? I don't look up,
 I don't look down I look ahead and
 make no sound My love was there,
 I only stare Healthy in my dreams
 Is what you are is what it seems
 What does it all mean? You're only
 hiding behind a screen Curse the
 English day For what it forces us to
 say Banish all the pain 'Cause
 when I die, die I'll see you again

LIGHT FROM A DEAD STAR He lives his life in a world full of woman And he takes what he wants from their love And he throws the rest away I cling to him and pray But still he slips away And now it's just too late To wish him back again She won't put up with this life so she leaves him And she finds someone else, falls in love And she travels far away I say that it's ok And swallow all my pain And now it's just too late To wish her back again They left me here on my own in a nightmare And I just can't forgive any more So I smile and turn away Don't listen when they say They wish that I could stay And now it's just too late To wish me back again
